

THE POWER OF WORKING TOGETHER.

Cooperative Energy Member Systems

Electric cooperatives work together to provide safe, reliable, and affordable power. TOGETHER, we have more power to do good for the communities we serve.

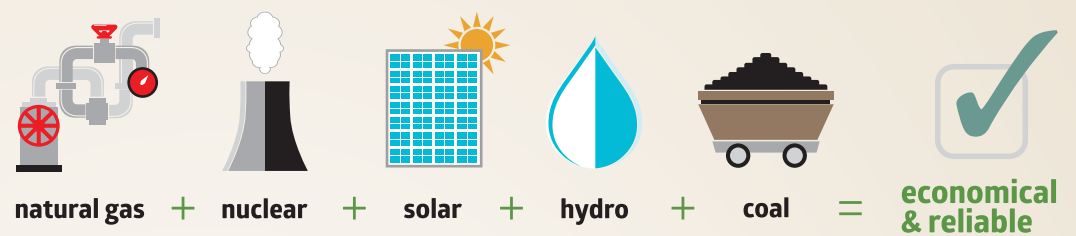

The Power of 12

Check us out! We serve 55 of Mississippi's 82 counties. If you are served by one of our 11 distribution cooperatives, you are a voting member-owner of that cooperative.

How do we get Power?

Cooperative Energy generates power at multiple generating sites across the state.

Our Energy Mix

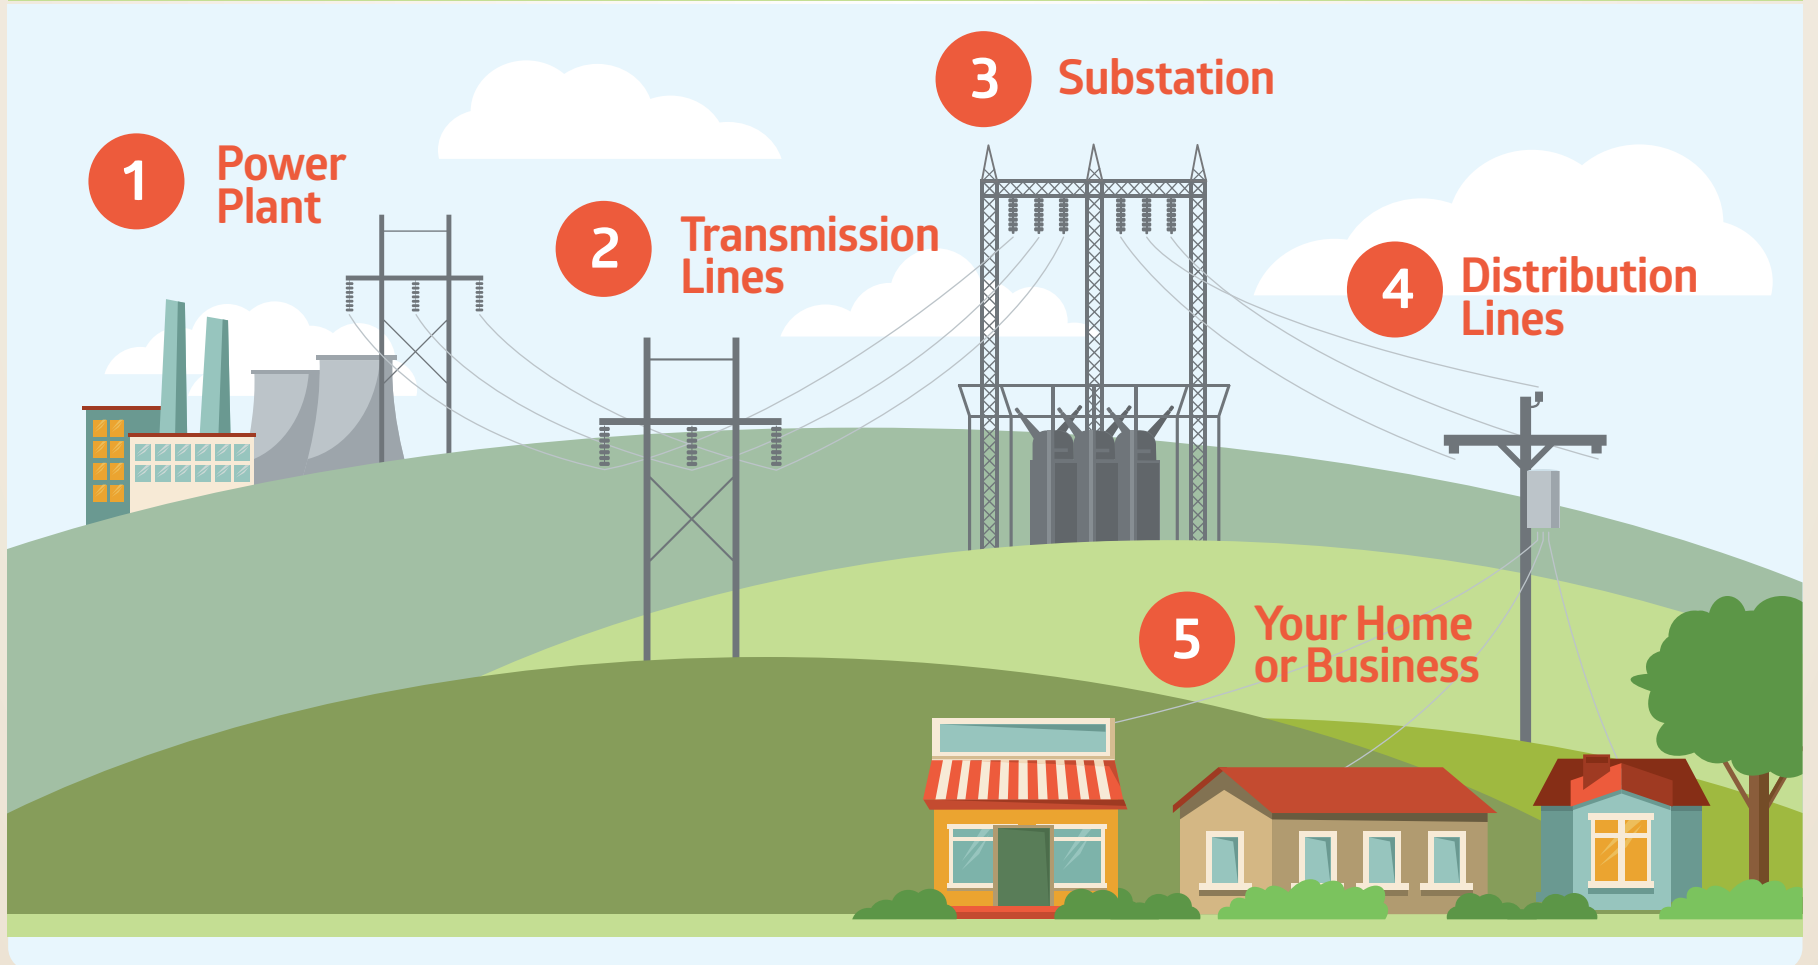

445,000 Members = **1,000,000** Mississippians

Where Does Your Electricity Come From?

Cooperative Energy operates generating units across the state and then transmits electricity to our 11 Member cooperatives, who then distribute power to your home or business. Here's the journey from generator to meter:

A Powerful Voice – Yours.

Local Leadership is Listening

Your electric cooperative's elected board members are from your service area, and this provides local control. As a member-owner, you have a say in how the cooperative runs.

Here's how it works.

Elected board members are from your service area.

Members connect with board members.

Board members listen and respond.

Member involvement through voting or reaching out.
